Mission:

To provide income and job opportunities to investors and entrepreneurs by producing trading platforms and business solutions in the real and virtual reality fields.

Vision:

To combine both the traditional and modern financial structure into a new open and transparent opportunity to generate a truly decentralised (Defi) cryptocurrency funded hedge fund. Over a 4 year period the aim is to move from asset accumulation to revenue generation, transforming the project from a token-based utility to an NFT-based format that leaves all remaining participants with potentially life-changing passive income.

Values:

Transparency and fairness.
Confidence based on competence.
Fundamental value, not hype.

The Problem with the World of Finance:

In the last decade, the entire global financial landscape has changed irrevocably, completely turning the traditional financial world upside down.

The shift from centralized to decentralized, digital has brought the most surprises. Decentralized financial services and platforms have not been able to move on to anything other than just holding funds, as the centralized financial sector is rapidly starting to give way to blockchain technology.

Bitbox Finans will create solutions that will provide investment and business opportunities by solving such problems and establishing new business areas.

Project support utility tokens:

FreeBag (FREEB):

While creating its basic infrastructure, BitBox Finance integrates different areas with the FreeBag wallet and the FREEB platform, which will serve as a bridge, to provide business and investment opportunities in many areas.

Bonus (BONUS):

By producing social interaction organizations and projects in real spaces and virtual reality environments, which Bitbox Finance will create within its efforts to provide profit to its supporters and investors. will activate BONUS Tokens to generate income for the funds of investors and supporters.

You can find information about FreeBag (FREEB) and Bonus (BONUS) in their white/lite papers.
